📄 PROFILE

Detail-oriented and passionate Full Stack Developer with hands-on experience building responsive, scalable, and user-friendly web applications. Skilled in both frontend and backend technologies, including HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Proven ability to design, develop, and deploy full-stack solutions from concept to production. Strong understanding of API integration, database management, and modern development tools such as Git, GitHub, and cloud deployment platforms.

Equipped with a solid foundation in software development through academic training and real-world internships, I thrive in collaborative environments and fast-paced teams. Committed to writing clean, maintainable code and continuously learning to stay up to date with evolving technologies.

Currently seeking opportunities to contribute to innovative projects and deliver real value to users while growing as a developer.

📜 CERTIFICATES

Full Stack Software developer

Certificate in Software Development – Strathmore University Completed practical training in full stack development, covering frontend and backend technologies, database management, and software engineering principles. Gained hands-on experience building web applications using modern tools and frameworks.

MERN Stack developer

MERN Stack Developer Certificate – Power Learn Project Africa Trained in full stack web development using MongoDB, Express.js, React.js, and Node.js. Developed and deployed real-world projects, learned API integration, and applied best practices in building responsive and dynamic web applications.

Aspire leaders Certificate

Aspire Leaders Program Certificate Completed a leadership development program focused on building communication, teamwork, and problem-solving skills. Gained practical experience in ethical leadership and global collaboration.

🏆 AWARDS

Certificate in Full attack software Development

Strathmore University

13/09/2024

I was awarded a certificate by Strathmore University for successfully completing the Full-Stack Software Development course. This certification recognizes my proficiency in both frontend and backend development, as well as my ability to build scalable and efficient applications. It reflects my dedication to mastering software engineering principles and applying them to real-world projects.

🎓 EDUCATION

MERN stack web developer

Power Learn Project Africa

11/2024 – 05/2025 | Nairobi, Kenya

MERN Stack Developer Training – Power Learn

Project Africa Completed hands-on training focused on building full-stack web applications using the MERN stack.

- Built responsive user interfaces using **React.js**
- Created backend APIs with **Node.js** and **Express.js**
- Managed data with **MongoDB**
- Connected frontend and backend using **REST APIs**
- Handled **state management** in React apps

PROFESSIONAL EXPERIENCE

Future Intern

Web developer Intern

02/2025 – 04/2025 | Mumbai, India

responsible for working on web based projects that meet the client needs, the work was remote with flexible work hours .

Ilap Africa

Full Stack Developer Intern

10/2024 – 01/2025 | Nairobi, Kenya

I was working as an Intern Under the Department of IOT helping the developers develop and tackle new projects that meet the client needs.

SKILLS

Frontend Development: React.js, HTML, CSS, JavaScript, TailwindCSS

- Problem-solving & debugging
- Clean code writing & best practices
- Time management & meeting deadlines
- Agile & Scrum collaboration
- Teamwork and communication
- Fast learner and adaptable
- Attention to detail
- UI/UX design basics

LANGUAGES

English

Arabic

Swahili

- Used **Git and GitHub** for version control and collaboration
- Deployed full-stack apps using platforms like **Render** or **Vercel**

Full Stack Software development

Strathmore University

06/2024 – 09/2024 | Nairobi, Kenya

Full Stack Software Developer Training –

Strathmore University Completed intensive training focused on both frontend and backend development.

- Built dynamic websites using **HTML, CSS, JavaScript**
- Learned frontend frameworks like **React** or **Vue**
- Created backend applications using **Node.js, Express**, and **PHP**
- Worked with **databases** like **MySQL** and **MongoDB**
- Used **Git and GitHub** for version control and teamwork
- Practiced **API development** and integration
- Applied **agile methods** and team collaboration tools

Leadership and Problem Solving skills

Aspire Leaders Program

01/2025 – 05/2025 | Nairobi, Kenya

Leadership & Personal Development – Aspire

Leaders Program Completed a global leadership program focused on personal growth, critical thinking, and professional skills.

- Improved **communication, teamwork**, and **leadership** abilities
- Learned about **emotional intelligence, resilience**, and **ethical leadership**
- Participated in global peer discussions and mentorship sessions
- Gained confidence in solving problems and making decisions in real-world contexts

INTERESTS

General Intrests

- Building personal or open-source projects
- Exploring new web technologies
- Participating in hackathons or coding challenges (e.g. LeetCode, HackerRank)
- Contributing to GitHub repositories
- Designing UI/UX prototypes
- Learning emerging tech (AI, Blockchain, DevOps, etc.)
- Writing tech blogs or documenting solutions
- Attending tech meetups, webinars, or conferences
- Solving real-world problems with code
- Mentoring or collaborating with other developers
